

DD and DM 2 & 4 Tools digital control units

The DD and DM 2 & 4 Tools digital control units feature a digital read-out display for accurate temperature and tool control.

The DD-2B 2-tools control unit offers connectivity for working with 2 tools simultaneously.

The DM-2B 4-tools control unit offers connectivity for working with 4 tools simultaneously.

These control units were designed for production and rework applications with high thermal requirements.

The control units feature adjustable sleep and hibernation modes, as well as independently adjustable temperature settings for each individual tool. All values can be locked by PIN.

DD and DM control units are fully connectable to all JBC tools (use corresponding stands for tools), including DR and DS desoldering irons in combination with either of JBC's electric suction systems MS-A and MV-A.

DD-2B 2 tools control unit 230V

Basic specifications

Nominal power: 2 X 75 W
Total peak power :2 X 140 W
Sleep power: 2 X 10W
Hibernation power: 2 X 4W
Temperature selection: 90-450° C
Weight: 3,5 kg

DM-2B 4 tools control unit 230V

Basic specifications

Nominal power: 4 X 75 W
Total peak power: 4 X 140 W
Sleep power: 4 X 10W
Hibernation power: 4 X 4W
Temperature selection: 90-450° C
Weight: 4,5 kg

For a complete soldering station the following is needed:

- Control unit
- From 1 to 4 tools with its corresponding stand & cartridge
