| LED dual function displays	Universal with dual functions, 4 combinations (AC+DC)	Codix 54U

The Codix 54U is a voltage-powered dual function counter with 4 functions in one device:

Counter with 2 totalising ranges, totaliser and timer, totaliser and frequency meter, timer with 2 time ranges.
For fast and slow count pulses, with 6-digit LED display for NPN, PNP input signals.

DC	AC	000000	+/-	IP65		ProG	max.				t/Hz
10 ... 30V	100 ... 240 V	DIN 96 x 48	- 20° + 65°	IP65			60 kHz	1/sec 1/min			HRA
Power supply		DIN front bezel	Temperature range	High protection level	Plug-in screw terminal	Menu-driven programming	Pulse counter/ Totaliser	Frequency meter/ tachometer	Timer		Frequency meter HRA

Powerful

- Fast count and frequency input – input frequency max. 60 kHz
- Robust housing – IP65 protected
- Very bright LED display, 14 mm high, 6 digits
- Very accurate precise frequency measurement principle (HRA-High Rate Accuracy System)
  Frequencies up to 38 Hz are calculated using time-interval (period duration) measurement. Frequencies > 38 Hz are calculated using a special time base (gate time) measurement. A very high accuracy of < 0.1% is achieved, even with very short gate times. The resulting measurement is available after a max. of 50 ms.
- Short start-up time – detects input pulses just 16 msec after being switched on => no pulses are lost with a simultaneous motor start-up

User-friendly and universal

- Large keys – can also be operated when wearing gloves
- Programming:
  - Simple uniform menu-driven programming and operation
  - Possible to enter the programming also during operation with a confirmation prompt
  - Pressing the right key switches between displays
- Individually programmable scaling: multiplication and division factor (0.0001…99.9999), to display corresponding engineering units, e.g. position in 1/10 mm and speed in RPM
- Separate factors for frequency- and pulse counting
- AC or DC power supply
- Inputs: as an alternative to the HTL inputs, devices with a 5 V DC input level are available, for use as parallel displays for PLCs
- Timer specials: timer or hours-run meter with various Start /Stop measurements, time range settings in hours, minutes or seconds, with decimal point. Resolutions up to 1/1000 can be programmed.
