### STANDARD

#### TS-10

Ideal for assembly work when soldering PCBs, or replacing parts.

Model	Tip Shape	Length	Weight
TS-10	Standard	Approx. 120mm	Approx. 19g

### LONG

#### TS-11

With a tip and overall length longer than standard tweezers designed for precision electronic assembly, this is ideal for holding tiny components.

Model	Tip Shape	Length	Weight
TS-11	Long	Approx. 140mm	Approx. 15g

## EXTRA STRENGTH

### TS-12

With a stronger hold than standard tweezers, the tip will not bend even when pinching chips forcefully.

Model	Tip Type	Length	Weight
TS-12	Extra Strength	Approx. 115mm	Approx. 15g

## ROUND

### TS-13

Rounded tip prevents damage to components. Used for handling wafer chips.

Model	Tip Shape	Length	Weight
TS-13	Round	Approx. 120mm	Approx. 19g

## EXTRA FINE

### TS-14

Extra thin tip with a sharp and strong edge for use during high density PCB assembly.

[Http://www.100y.com.tw](http://www.100y.com.tw)

Model	Tip Shape	Length	Weight
TS-14	Extra Fine	Approx. 125mm	Approx. 17g

## CURVED

### TS-15

With a tip angled at 45° this is ideal for handling components in a narrow space.

Model	Tip Shape	Length	Weight
TS-15	Curved	Approx. 115mm	Approx. 15g

## PRECISION TWEEZERS

### TS-16/17

Reverse action helps picking up or holding parts when soldering.

Model	Tip Shape	Length	Weight
TS-16	Tapered	Approx. 120mm	Approx. 20g
TS-17	Round	Approx. 168mm	Approx. 30g

## CERAMIC TWEEZERS

### CERAMIC TWEEZERS TS-100

•100% anti-magnetic shielded tip does not generate static electricity so it is perfect for handling precision electronic parts safely. •Heat resistant ceramic tips make the **TS-100** usable for long periods with high durability. •The materials used for the body have excellent resistance to acid and alkaline chemicals making the **TS-100** perfect for pharmaceutical applications too.
