

MG21888

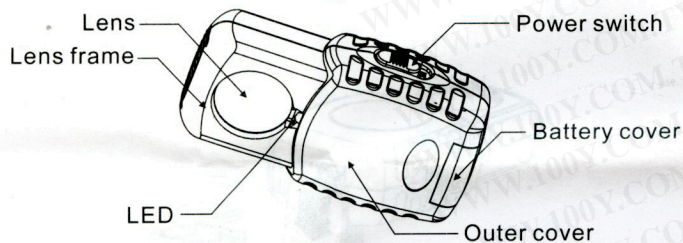

POP-UP JEWELRY MAGNIFIER WITH LED LIGHT SOURCE

Magnification: 45x

Lens Diameter: 21mm

Illumination: LED Light

Uses 2 LR1620 batteries

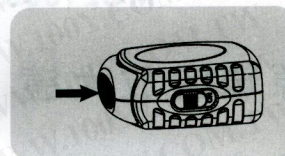

Application:

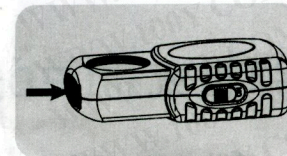

jewelry appraisal, stamp-collecting, gardening, machinery manufacturing, medicine, education, office and home etc.

Features:

- 1、The entire operating course can be finished by one hand;
- 2、Lens adopts K9 optical glass with strong transmittance and no color difference;
- 3、Reasonable circuit design, convenient battery replacement;
- 4、Its shape adopts skid-proof columnar teeth design which can be skid-proof instead of pricking one's hand.

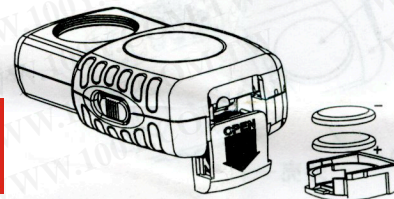

Slightly press the top of lens frame, the magnifier will pop up automatically;

Press lens frame back to original place after use, the magnifier will lock automatically;

- Push the switch to turn on LED in time of insufficient light source;
