The SR-982 with Ceramic Heater

Replacement Tips

The bar-type ceramic thermal element of high insulation reduces the gap between the handle and the nozzle, for fast welding by slightly moving it.

The thermal element of special alloy remain on the alumina ceramic insulation coating that becomes the ceramic body with sintering, making the thermal element fully concealed from the air and keep the thermal element from being oxidized for longer service life.

The SR-982 welder is a new product of ours.

It features resistant ceramic thermal element and rustproof nozzle for optimal service life.

MODEL	WEIGHT	HEATER	PACKING MEASURE	CUFT
SR-982A	115g	15W	50PCS	1.7'
SR-982B	115g	20W	50PCS	1.7'
SR-982C	115g	25W	50PCS	1.7'
